

# Weekly Graphic

KIRKSVILLE, MISSOURI.  
FRIDAY, DECEMBER 9th, 1881

## NOTICE.

The GRAPHIC has arrangements by which it clubs with the leading papers and magazines throughout the country at the lowest rates. Bear this in mind.

**FOR SALE CHEAP.**—A good mule team, harness and wagon. Apply to this office or FRANK PROFFER.

### Saturday's Daily.

The days will soon be at their shortest.

The way to make a short winter—give your note for ninety days.

The sidewalk to the N. M. Depot has been put in much better condition. It was an improvement badly needed for a long time.

The GRAPHIC scores another big week's business and is still rushed with a large force of first class printers constantly employed.

Dr. A. T. Still who has been visiting in a professional way southwest Missouri is at home again this week.

The stores, groceries and toy shops are beginning to bloom out with Christmas attractions.

The Hon. Mr. Belhster, prominent St. Louis politician and "whooper up" generally for northeast Missouri has not reported yet.

Things seem to be in a flourishing condition about Link & Brasfield's warehouse. A great many hogs are coming in now.

There is still some diphtheria among the children though of a less malignant type.

The demand for dwelling houses is still greater than the supply, notwithstanding there have been over fifty erected during the season.

Mrs. Mary E. Tate and her daughter Miss Caswell, went to Quincy Saturday.

Joe Smith of Liberty township accompanied by his wife started to St. Joseph today, called there by the illness of a son.

Miss Nellie Chandler, niece of Mr. Guy Chandler, died at her home in San Diego Co., Cal., Nov. 10, of consumption. She spent some time in this county several years since, and taught a very successful term of school at the "Bryant" and no doubt will be remembered by many in that district.

A little matinee in the south west part of town last night would indicate that there is one wife in Kirksville who has not been subdued by her husband. His black eye and scratched face looks as if the subduing was on the other side this morning.

It is reported that a number of men who claim to be friends of the late Jesse Munn have formed an organization and pledged themselves to revenge Munn's death by cleaning out the town. We guess an attempt of the kind would only result in the shortening of the career of a few of the avengers.

A man by the name of Murray was up before Commissioner Musick one day this week for violating the revenue laws by selling whiskey without license. He pleaded guilty and stated as his excuse that he had been selling in Macon county and that the officers there told him to go on, it being the only way he could support his family, and keep out of the poor house. He took a trip to St. Louis where his case will be disposed of.

### Monday's Daily.

Mr. A. M. Robeson, by Baylor & Miller, of Milan, spent Sunday and Monday in Kirksville, and gave the GRAPHIC a friendly call this morning.

Ned Halladay returned Saturday from a week's vacation and recreation in Illinois.

Jerry Lyman came yesterday from Texas looking well. He is enthusiastic over the country, and reports everything lively. He bought a farm of 450 acres and will return again in a few weeks.

J. L. Whitaker, of the New York store, who went to Virginia some weeks ago, on account of the death of a brother, is at home again.

Lewisohn has a new postmaster—republican in place of democrat.

LaBelle has aspirations for the county seat.

Messrs. A. H. Lathan and N. Vandiver of Liberty township paid us a pleasant call Monday morning. Mr. Vandiver joined the grand army of GRAPHIC readers and left the needful on our desk. They all are doing it.

A certain "branky" business man demonstrated this morning how easily a man can make a fool or ass of himself by ordering a gentleman out of his place of business because he gets his printing done at the GRAPHIC office. Pretty bad beginning, so soon after the Sabbath, for a christian gentleman to treat an inoffensive stranger in that way. The Singer Sewing Machine Company can hardly afford many "didos" like this from their representative at this place. It will hurt their business.

The south bound freight train met with an accident on Saturday near

Queen City and the engine was badly dented. The passenger due here at 8:30 did not go south till about four o'clock Sunday morning. From the number of denticings etc., between here and Glenwood we judge the track must be in pretty bad fix. We learn that no one was injured by the accident though the engine was upset in the ditch.

We learn from reliable information that J. T. Kiggins is giving the very best satisfaction in the neighborhood in which he is teaching.

### Tuesday's Daily.

Mr. Sparks, of Floyd Creek, left a double melt (spleen) taken from a hog he had butchered. We understand it is a rare occurrence to find two in the above instance.

Cards are out for the marriage of B. P. Fullerton, of Kansas City to Miss Callie Mitchell, of this place. Ceremony to take place at the C. P. Church on Wednesday evening the 14th inst.

### Target Practice.

The following is a report of the first Target practice of Co. E., 2nd Regt. N. G. M., on Dec. 1st, 1881.

First round, two hundred yards, off hand, seven balls hitting target. Second trial, two hundred and fifty yards, off hand by volley. Result good.

All members are requested to attend the third Saturday at 2 o'clock for target practice.

JOHN RICHARDSON, Capt.

### Wednesday's Daily.

Lovely moonlight nights.

Long freight trains, regular and extra on the Wabash.

Large amount of coal is being shipped to this place.

Hogs are going to market in a lively way just now.

The EVENING GRAPHIC since its enlargement is quite eagerly sought after.

Roads are getting good again and business ought to pick up.

Local items are distressingly scarce just now. Blessed are the people who have no annals.

The Guiteau side show and Congress monopolize the wires just at present. A rope would better become the first.

We were obliged to take to dating our locals in the Weekly purely in self defense.

Mr. John W. Stevenson, of Polk township, dropped in today and enrolled himself as a reader of the GRAPHIC for the coming year.

Mr. Jos. Smith, of Walnut township, returned last night from DeKalb county, where he went on account of the illness of his son, W. J. Smith, of Osborne. We are glad to hear that his son is in fair way to recovery. Mrs. Smith remained at Osborne to care for him till fully convalescent.

Mrs. E. H. Fulkerson of Marshall, Mo., is here on a visit to her son, Wood Fulkerson, and other friends.

Capt John Richardson left last night for Kansas, where he expects to remain until spring.

T. J. Lambert, with his gang of bridge builders, 19 in number, of the where they go to work on the bridge across the Mississippi.

Yesterday, p. m., while Lon Taylor, Q. P. & M. left this morning for Keokuk, of Ringos Point, was assisting in loading stock at the depot at this place, in attempting to pass between two cars his foot was caught between the bumpers and badly crushed. He was taken to the office of Drs. Swetnam and Goben, where the wound was dressed.

### LaBelle Items.

The third number of the National Real Estate Index is now in press and will be issued this week. It has patrons, subscribers, and advertisers in every state and territory in the Union.

Our Greentop correspondent is on hands this week with a fine batch of items. We want just such a correspondent at La Plata, Millard, Brashear and all other important points in this county.

LA BELLE, Dec. 3rd.—A literary Society has been organized at the public school building.

L. McQuary is renovating feathers. This business has become very popular here.

A man named Northcraft, living south of town a few miles, gave his wife the wrong medicine through mistake last week, and she died in a few minutes. He has been almost crazy since and fears are entertained that he will take his own life.

The wife of Mr. Ed. Leland died on Monday, 28 ult., after a long illness. She was much loved and her loss is deeply felt.

### A Short Road to Health.

To all who are suffering from boils, ulcers, scrofula, carbuncle, or other obstinate diseases of the blood and skin, a course of Burdock Blood Bitters will be found to be a short road to health. Price \$1.00, trial size 10 cents.—For sale by J. G. Jamison.

If you want a kind accommodating affable, genial person, ask our good-natured, jovial, jolly, poorly paid postmaster for any little favor not strictly official and see the result.

John Tade, of Greentop, was in town Monday and enriched our exchequer by another year's subscription to the GRAPHIC.

Jackson McGrew, of Spring Creek was in town this week, and gave us the ducaats for the GRAPHIC.

### Thursday's Daily.

Preaching in the Methodist church, South, next Sunday at 11 a. m. and 6:45 p. m. by the pastor, A. V. Bayley.

And A. H. John says we are Green-backers—we will should giggle!

A nice line of the latest and noblest styles of Wedding cards and dance programs just received.

Over seventy dollars worth of job work this week in addition to our regular subscriptions, advertising, etc.

Common laboring men who can't go to the post office till after night need not go. It is closed.

We understand the Post office is closed promptly every evening at seven o'clock. Short nights—and poor pay.

If you have letters going south at 8:30 p. m. or north the next morning better get them into the office sometime in the afternoon.

Not that we care particularly for ourselves but in justice to Mr. Jones—the gentleman who was insulted because he gets his job printing at this office, as he has a right to do—we will say that he knew nothing of our notice till the paper was issued, and that the office alone is responsible for it. Further that the so called newspaper which is so fast to espouse the other side had better learn what it is talking about before it pitches in so freely. The card or directory for which the gentleman was solicited is printed as a job and does not appear in any paper. It had been inserted in the GRAPHIC it would have had a circulation considerably over 1,200 instead of under, and have been a far more creditable advertisement to the excitable individual who represents the Singer company at this place, than his present attitude. The company is not to blame for they always aim to be represented by gentlemanly agents—for it is to their interest to be so represented. Mistakes will occur sometime, however.

Mr. E. G. Mathews while unhitching his horse from the wagon on Monday evening last, had the misfortune (the horse being a little unruly) to get entangled and thrown in such a manner as to get considerably hurt. It was first thought one leg was broken, but Dr. Goben on examination found it to be only a ruptured ligament and severe bruises.

We learn that hogs are dying of cholera in the northeast part of the county.

Floyd's Creek has a debating society which meets every Friday evening and wrestles with the leading questions of the day. The question for tonight is: "Is phrenology a science." They should look to the philosopher of the *Democrat* before undertaking a question of that magnitude.

Through the politeness of Sheriff Shaver and his deputy, Mr. Williams, we are enabled to present the following statement for the year ending December 1st:

No. arrests and convictions, 51.  
No. committed to jail, 30.  
No. sent to penitentiary, 6.

Grand jurors summoned and paid, 37.  
Petit jurors summoned and paid, 387.  
Grand jury witnesses subpoenaed and paid, 122.

Douglas, D. A. Ely, A. J. Henly, Park Holmes, A. Hannah, I. T. Jackson, J. McGrew, J. Novinger, Isaac Novinger, S. B. Page, Ed. Pearce, J. H. Ricketts, S. Redmugger, R. N. Toler, G. W. Turner.

Our two papers have opened their batteries again.

### A New Story.

## GREENTOP GRAPHICS.

GREENTOP, Dec. 6.—On Saturday of last week an extra train, north bound, engine and four box cars were thrown from the track, four miles north of Queen City. The four box cars were badly wrecked. They went in the ditch and the engine tipped off on the side of the track. The fireman jumped from the engine but the engineer stuck to his engine. The cause of the accident was the section boss had out a rail. He had out his stop flags, but the train was going down grade and could not get under control before they reached the track.

On last Friday week John Sower's bridge company was coming in from York, south of Greentop tank where they had been putting in a bridge on the railroad. One of his men slipped and fell in front of the hand-car, and it passed over him and wheel run over his leg badly bruising and cutting it. No bones broken. He returned to his home at Moberly on Friday night.

The pile driver was here last week driving piles along the rail road and putting in new bridges.

Mr. Hamilton has made a start on our side walks which we are glad to notice.

We learn several parties were on a bender at the B. nest on last Saturday, J. S.
